### Fashion IELTS Speaking Part 2 - Cue Card

#### Describe someone you know who dresses well

You should say,

- Who are they ?
- How do you know them ?
- What kind of clothes do they wear ?
- Why do you like the way they dress?

George: I would love to talk about my childhood friend, **David**, who I consider a real **fashion icon**. He's currently a software engineer at a prestigious company, but honestly, my friends and I have often joked that he should enter a fashion show!

I've known David since we were in school; I even sat next to him on my first day. We quickly became the best of friends, and even back then, he had an incredible **sense of style**. His ability to put an outfit together is truly **incomparable**. It's interesting because his father has a very **old-fashioned yet timeless** way of dressing, so perhaps he inherited a bit of that unique taste. David has an incredibly diverse wardrobe. He's often said he's "dressing to kill," which perfectly captures his confidence. He primarily favors **trendy, top-notch clothes** from **high-end designers**. I once glimpsed his wardrobe, and it was packed with **pricey vintage clothes** as well. When we go shopping, he invariably gravitates towards items with **designer labels**. He loves experimenting with different styles and is a master of **mixing and matching** various pieces. Beyond the luxurious and stylish items, he also has a fondness for **trench coats, jackets, waistcoats, and even unique pajamas**. While he might try to be discreet about it, I'm quite sure he's a **slave to fashion**!

For me, David truly represents the **height of fashion**. I simply admire his dressing style because he possesses such a **unique taste**, which is evident in his **bespoke dresses**. He isn't tied down to one particular style; instead, he embraces many. Personally, I especially appreciate it when he wears **classic style clothes** – he pulls them off impeccably.

## Fashion IELTS Speaking Part 3 - Follow Up Questions

### How important are clothes and fashion to you? (Why/Why not?)

Henry: For me, it's all about the **quality and aesthetic appeal** of the clothes. I mostly opt for **off-the-peg** and more **affordable items**. I used to chase fashion trends, but I honestly felt like a **fashion victim**, so I've since moved away from constantly trying to keep up.

### How different are the clothes you wear now from those you wore 10 years ago?

Michael: Oh, they're drastically different! Ten years ago, I had absolutely no interest in buying clothes; I'd simply wear whatever my father picked out for me. But now, I've become quite the **clothes horse**, acquiring lots of **chic garments**. I particularly love clothing with **embroidery work**. I even find myself spending an excessive amount of time looking at shoe displays!

### What do you think the clothes we wear say about us?

Tomas: It's certainly not straightforward to deduce someone's entire personality just from their clothing choices, but we can make some educated guesses. For instance, if someone is comfortable wearing **hand-me-down clothes**, it might suggest they aren't overly preoccupied with fashion. On the other hand, if a person consistently **keeps up with the latest fashions**, it could indicate a desire to stand out or be the **center of attention**.
